Givaudan Roure Flavors

With a combined total of over 800 years of experience, Givaudan is one of the oldest and largest flavour and fragrance houses in the world. Givaudan makes use of product development and research capabilities to serve a divers and distinguished clientele by creating flavour compounds for

a variety of products. Givaudan is a science smart and innovative company, well positioned to succeed into the 21st century.

Solution at a glance...

Client: Givaudan Roure Flavors

Industry: Food additive products/Manufacturing

Environment: Windows NT/As400/BPCS

Solution: Shop Floor Control/Warehouse Management

Devices: Intermec Antares / CK60 Terminals

Solution Summary...

Givaudan Roure Flavors, a subsidiary of Roche Pharmaceuticals, needed to design and implement a comprehensive Warehouse Management System to interface with their BPCS based software. Additionally, Givaudan Roure Flavors needed a Shop Floor Data Collection System for the manufacturing aspect of their business.

RFGen Software from the DataMAX Software Group provided a reliable, robust system that allowed Givaudan Roure Flavors the ability to completely manage their inventory and manufacturing needs on a real time basis.

RFGen features such as ODBC Database mapping and screen mapping enabled Givaudan to seamlessly combine software

and data from completely different platforms into one easy to develop and maintain data collection system.

Givaudan Roure Flavors decision to implement the RFGen solution was based on the technology's easy of use, and demonstrably more reliable than anything else available on the market today. DataMAX's track record for on-time, on-budget implementations helped to solidify the decision.

Givaudan Roure is a science smart and innovative company, that is well positioned to succeed into and beyond the 21st century. RFGen's flexibility and the ability for Givaudan Roure to easily maintain its data collection assists in Givaudan Roure in meeting their goals.
